

Proposed EASDEC programme Paris 2010

Friday 21 st May 2010	
12:15 - 13:25	Light lunch and registration
13:25	Welcome address: Pierre-Jean Guillausseau and Anne Katrin Sjølie
	First ORAL presentations sessions: Clinical studies. Chaired by: T Peto and F Bandello.
13:30 – 13:45	A 25-year follow-up study of type 1 diabetic patients: nephropathy at follow-up is associated with proliferative retinopathy at baseline. J Grauslund, C Karlberg, C Falk, A Green, AK Sjølie.
13:45 – 14:00	Diabetes as a risk factor for post-CRVO neovascularization. M Paques, E Champion, N Sedira, JF Girmens, JA Sahel, E Héron, S Feldman.
14:00 – 14:15	The significance of microaneurysms and haemorrhages within one optic disc diameter of the fovea. H M Wharton, P M Dodson, J M Gibson.
14:15 – 14:30	Laser Treatment of Diabetic Macular Edema: Toward a Less Invasive Approach. S Vujosevic, E Pilotto, E Bottega, E Midena.
14:30 – 14:45	Safety profiles of ranibizumab in diabetic versus non-diabetic AMD patients from randomized controlled trials. F Bandello, G Burian, A Weichselberger, Y Hashad.
14:45 – 15:00	Evaluation of a new ranibizumab re-treatment criteria based on the RESOLVE study. P Massin, Y Hashad, G Burian, A Weichselberger.
15:00 – 15:15	Visual acuity response to ranibizumab stratified by baseline characteristics in diabetic macular edema (DME) (RESOLVE study). LL Hansen.
15:15 – 15:30	Evaluation of intravitreal dexamethasone drug delivery system in patients with persistent diabetic macular oedema, P Massin et al
15:30 – 16:00	Coffee break
	Keynote lecture
16:00 -16:45	Beverly Balkau: Glycaemic threshold for diabetic retinopathy and diagnostic criteria for diabetes - from the DETECT-2 collaboration (France, Paris) Chair and introduction by: Professor Pierre-Jean Guillausseau
	Symposium
	Challenges of Diabetic Macular Oedema diagnosis. Chair: Anne Katrin Sjølie and Alain Gaudric. Introduction and case scenario: Anne Katrin Sjølie. How to evaluate DME progression on OCT? : Pascale Massin. The pitfalls of current imaging technologies: Tunde Peto. Function- structure correlation: OCT and Microperimetry: Stela Vujosevic. Case scenarios: Ali Erginay. Close: Alain Gaudric
16:45 – 18:15	
19:30	Dinner – local organisers to confirm

Saturday 22 nd May 2010	
	Laboratory studies pathophysiology of diabetes Oral Presentations. Chair: M Porta – T Bek
9:00 – 9:15	Correlations between vascular response to flicker light and retinal function in normotensive patients with diabetes without diabetic retinopathy. A Lecleire-Collet, A Erginay, T Meas, M Paques, E Vicaut, PJ Guillausseau, P Massin.
9:15 – 9:30	Neuronal Retinal Damage in Non Proliferative Diabetic Retinopathy: An in vivo Quantitative Study. E Midena, F Martini, A REDIU, M Casciano, S Vujosevic.
9:30 – 9:45	Retinal oxygenation in patients with diabetic retinopathy. E Stefánsson, SH Hardarson, OB Olafsdottir.
9:45 – 10:00	TNF- in diabetic retinopathy. C Gustavsson, CD Agardh, E Agardh.
10:00 -10:15	Pericyte-endothelial cell interactions in co-culture models mimicking the diabetic retinal microenvironment. E Beltramo, S Tarallo, E Berrone, M Porta.
10:15 – 10:30	Possible positive effects of insulin in early pericyte loss. E Berrone, E Beltramo, S Tarallo, M Porta.
10:30 – 11:00	Coffee break
	Eva Kohner Lecture presented by Emeritus Professor John Fuller: The epidemiology of Diabetic Retinopathy - Insights from the EURODIAB study, University College London, UK. Chair and Introduction: Anne Katrin Sjølie
11:00 – 11:45	
11:45 -12:15	General Assembly
12:15 – 14:00	Lunch and poster session. Poster session is to be chaired by: Ali Erginay and Steve Aldington.
	Screening and epidemiology: ORAL Presentations.
14:00 -14:15	The burden of diabetic macular edema with visual impairment. P Lanzetta, M Gallagher, D Lakdawalla, K Van Nuys.
14:15 – 14:30	Screening for Diabetic Retinopathy: a Comparative Trial of Photography and Scanning Laser Ophthalmoscopy. PJ Wilson, JD Ellis, CJ MacEwen, A Ellingford, J Talbot, GP Leese.
14:30 – 14:45	An Expert System for the Risk Estimation of the Presence of Sight Threatening Diabetic Retinopathy and its Implementation as an Internet Resource. AN Stangos, AC Fisher, A Eleuteri, N Collaer, D Broadbent, SP Harding.
14:45 – 15:00	Automated disease/no disease. L Ribeiro, H Palaio, G Monteiro, L Cristóvão, JR Faria de Abreu.
15:00 – 15:15	Internet-served External Quality Assurance grading testing in the English National Screening Programme for Diabetic Retinopathy (ENSPDR). SJ Aldington, DJ Taylor, IM Stratton, PH Scanlon.
15:15 – 15:30	Prevalence of diabetic retinopathy in Vitebsk region (Belarus) in type 2 diabetes mellitus. M Morkhat, V Papko.
15:30 – 16:15	Keynote lecture: Antonia Jousen. The role of inflammation in diabetic retinopathy, Berlin, Germany. Chair and introduction by: Pascale Massin
16:15 -17:00	Awards ceremony and late breaking news. Chaired by: S Harding and T Peto
16:00 -16:15	Late breaking news: 12-month safety and efficacy in the RESTORE Study. G Lang (Germany)
16:30-16:45	Winner of the best laboratory/pathology abstract Hyperglycemia alters retinal endothelial cell glyccalyx: potential role of heparanase 1. KI Wolanska, JM Tarr, JL Whatmore, R Chibber.
16:45 – 17:00	Winner of the best clinical science/epidemiology abstract Prevalence and Types of Diabetic Retinopathy in Nigeria: Findings of the Nigeria National Blindness and Visual Impairment Survey. F Kyari, T Peto, S Sivsubramaniam, F Sallo, GVS Murthy, C Gilbert.
17:00	Presentation of the best poster award.
17:10	Concluding remarks and end of meeting. To be given by Pierre-Jean Guillausseau and Anne Katrin Sjølie.
